

INALYN KIM P. TAMAYO

Address: Blk 19 L1, NHA Buhangin, Davao City
Contact No. 09657816052
Email Address: inalynkimtamayo@gmail.com

OBJECTIVE

To contribute to a progressive and growth-oriented company where I can utilize my skills and knowledge as an Information Technology graduate, while continuously learning and gaining professional experience. I aim to support the organization's operations through my technical proficiency, adaptability, and strong work ethics.

EXPERIENCE

Quality Assurance Analyst · Arrow

Sep 2025 – Oct 2026

Healthcare revenue-cycle platform

- Performed manual, regression, API, and end-to-end testing across application workflows.
- Developed and maintained Playwright automated tests, including a 314-test regression run.
- Validated frontend behavior against backend APIs, database state, and expected business logic.
- Investigated and reproduced defects, documented findings, and verified fixes in staging environments.
- Tested complex workflows involving claims, payer integrations, approvals, actions, and automation.
- Ran large-scale QA on data extracted from CMS-1500 claim forms, flagging field-level discrepancies and tracking accuracy metrics.
- Reviewed automated test coverage and CI test results.

Frontend Developer · Freelance / Commissions

Aug 2025 – Nov 2025

Guidance Office Management System for a college · with a teammate

- Built role-based portals for students, guidance facilitators, psychometricians, and the guidance head in Vue 3 and TypeScript.
- Built the multi-part Student Cumulative Records Inventory (SCRI) form, its review view, and PDF downloads.
- Built the counseling booking flow and calendar, and fixed a double-booking bug.
- Tested and polished the UI: responsive layouts, text visibility, and status indicators.

Student Intern · DSWD Field Office XI

Jun 2024 – Jan 2025

ICTMS Department · Davao City

- Served as Project Manager, Technical Writer, Developer, and QA Specialist.
- Created user stories and project plans using Agile development practices.
- Designed low- and high-fidelity prototypes for responsive web and mobile interfaces.
- Conducted manual and automated QA testing to validate system reliability and functionality.
- Built backend features for the vehicle and conference-room request modules, including search, pagination, and filtering.
- Built and integrated a statistics dashboard with real-time data aggregation and visualization.
- Delivered QA documentation, feature overviews, and deployment materials.

PROJECTS

HookEdu — Phishing Awareness Platform

Capstone Project

Frontend Developer / Technical Writer · Vue, JavaScript, HTML/CSS, Laravel, MySQL

- Built the Vue frontend for training modules, activities, and quiz flows, plus progress-tracking and admin dashboard views.
- Made layouts responsive across desktop and mobile, and wrote the project's technical documentation.

ICTMS Request Management System

DSWD FO XI

Booking system for vehicle and conference-room requests, with availability tracking and automated form handling.

TapTrackr

NFC Attendance System

Attendance system that logs classroom check-ins in real time from students' NFC-enabled IDs.

Task manager for adding, updating, and tracking daily activities, with a clean, responsive UI.
